## **Congratulations to our 2013 Scholarship Winner – Heather Jay!**

The Santa Rosa 99s want to congratulate Heather Jay for winning the 2013 SR99s Scholarship. Heather grew up around aviation, attending many airshows with her family. It wasn't until recently that she decided to make it a career of her own. Two years ago Heather applied for our scholarship for her commercial rating. She had about 400 hours and was well on her way to achieving her goals. Unfortunately she did not win our scholarship in 2011.

This year Heather applied again, this time for her CFI! In the past two years, Heather has added her Commercial ASEL / AMEL and Instrument Rating, as well as another 400+ flight hours! An awesome candidate for our scholarship. She currently has 900 hours and flies out of Chico airport. We wish her continued success in her aviation career.

Great job Heather!!

## **Ventura County 99s Scholarship Opportunity**

The Ventura County 99s will be awarding two \$3000 solo scholarships to young girls aged 16-20 at Oshkosh. The scholarship will provide funding to two recipients for flight training through their first solo.

Most aviation scholarships require applicants to have completed a minimum number of hours or previous ratings. Our goal is to interest young women who have never flown and expose them to aviation and the many opportunities available to them in aviation.

If you know any young women who might be interested in applying, here is the link.

## Vote for the 99s at LightSpeed

This week at Sun n' Fun LightSpeed Aviation Foundation announced that the Ninety-Nines are a finalist in the 2013 annual LightSpeed Aviation Foundation Pilot Choice Awards. Selected from a field of hundreds of nominees, the 99s are one of 15 aviation charities competing for grants up to \$10,000 that LightSpeed will award to the aviation nonprofits receiving the highest Internet vote tally in its annual grant competition.

In previous years the 99s have used LightSpeed Foundation grant money to increase outreach programs and expand our participation in aviation events, support our scholarship programs and expand the 99s' participation in the EAA Women Soar Program at Oshkosh. We have also been able to increase the number of flight training scholarship awards given to high school girls participating in Women Soar.

Through our scholarship and education programs we are committed to working with other aviation organizations to advance aviation and the growth of the pilot community. With votes and support from aviation enthusiasts, the aviation community, our members, friends and family, the 99s can win the 2013 grant competition and use the LightSpeed grant to establish and market a new solo scholarship. It will provide young women between the ages of 16 and 20 with the funding needed to support their flight training through their first solo.

Please vote for us at:

Thank you for your support of the 99s! Please feel free to share this email and encourage your friends and relatives to support the 99s and aviation scholarships. Please also remember to only use your email address once to vote in the competition.
